PRESENTATION TO
MRS. MARKIE

MRS. MARKIE

The W.C.T.U. planned to hold a social evening at the home of Mrs. H. W. Trimble, on Friday evening, to bid farewell to Mrs. Markle, but the weather man interfered with the arrangements. For years Mrs. Markle has been a valued member of the W.C.T.U., and her departure from town will be deeply regretted by her many friends. The members of the W.C.T.U. presented Mrs. Markle with a handsome cut glass nut bowl, the gift being accompanied with the following address:

Red Door, Alta., May 2nd, 1919.

Mrs. J. A. Markle, Red Deer, Alta.

Dear Mrs. Markle:—Our Union is gathered here tonight to express to you in a tangible form, a little of the esteem and affection with which we have always regarded you. Your kind and loving disposition, your thoughtfulness for others, and your many noble qualities have endeared you to us all. We will miss you in the Union, where your presence has ever been an inspiration and a help. We trust that the future will hold for you the best of health and happiness for you, and in the days to come may this little token remind you of your many warm friends in the Red Deer Woman's Christian Union.

Signed (Members of Union).

INFORMATION ABOUT SOWING VEGETABLES.

The time for sowing the seed and the early care of vegetables are very important factors in the successful growing of them. The seed of some kinds of vegetables will germinate at a temperature of 50° and under certain conditions of moisture at which other seeds will not germinate and will sometimes rot.

Seeds of beets, carrots, lettuce, onions, parsnips, peas, radishes, kohlrabi, garden cress, saffley, spinach, parsley and leeks can be sown as soon as the ground is not too dry, and the entire work that it will work well.

The seeds germinate at relatively low temperatures and the plant will stand considerable frost without serious injury. Other vegetables such as cabbage, cauliflower and celery will also stand frost, but these are usually started in the greenhouse in order to save time in the field.

Vegetables which require higher temperatures than the above in order to grow well and which are injured by light frosts are beans, corn, cucumber, melons, potatoes and squash.

Seed of late cabbage is not sown until late May, but it will endure frost and seed of Swede turnip should be sown late when required for the table.

In order to obtain plants subject to light frosts, which are well advanced before being set out, and to save considerable time in the field, melon seeds are sown in the open ground. Usually started in hot-beds.

Frequency last of germination of seed is blamed on the quality of the seed, whereas, it may be due to the way to the seed is planted or to the rotting of the seed in the ground when certain kind of seeds have been sown too deep. The seeds of melons are often planted much too deeply. For the smaller seed one-quarter of an inch for the smallest to one half of an inch for those a little larger is deep enough. If planted

much deeper the seed may germinate but the shoot does not reach the surface of the ground. In the case of peas, corn and beans are planted at two inches deep. In very loose soils, the surface of which dries down more than those fairly compact, slightly deeper planting may be necessary.

When the seed has germinated, great care should be taken to ventilate hot beds carefully. When the young plants come up, the frame should be kept sufficiently aired by raising the back or higher part of the sash to prevent the plants from getting spindly or weakly, when they are apt to damp off. When young

plants are often thick in the pot, and if in the sun and with the surface soil wet, they are very liable to damp off or scald. They should be thinned out and transplanted as soon as possible. Great care should be taken when the wind is high, but weather as cool as possible, to direct the plants will injure them. A board should be put at the end of the sash to break the force of the wind.

Plants which have been growing in a hot-bed or cold frame or in the house should be exposed to the open air for several days before they are set in the field, so that they may get used to night, or if set in the field without hardening off in this way

they are much more liable to be injured in cold or windy weather.

The Red Door Athletic Association is now an established fact, and a great forward movement will be made by citizens next week in support of the association. It is the intention of the association to furnish all bats, balls, and other paraphernalia for all players, and the association want to raise about a thousand dollars to be devoted to all kinds of sports in the city this year, and this will be the only one big call this year. Be ready to help on the movement next week.

WINNIPEG VETERANS OBJECT TO BISHOP.

Winnipeg, April 25.—The Great War Veterans' Association, here, are bringing every pressure to bear upon Ottawa to secure the deportation from Canada of Bishop Butka, head of the Ruthenian church in Western Canada.

Vice-President Newton has issued a statement declaring that every constitutional step possible is being taken by the Great War Veterans' Association to get the bishop back to Austria, and urging upon veterans the necessity of refraining from taking the matter into their individual hands and creating a situation which it is hoped to avoid.

His statements infer that a movement is afoot in some circles to force the issue, and he says it must be admitted that returned soldiers have every reason to be indignant at the laxity of the authorities. Mr. Newton reviews the activities of the bishop in the early stages of the war, and refers to announcements which appeared in the Canadian Ruthenian urging Austrians to return to the defence of the fatherland.

In conclusion, he says: "The returning soldier has no animosity towards Ruthenians who are in process of becoming good Canadian citizens, but he certainly is justified in refusing to tolerate a leader amongst the people who preaches the pernicious doctrines above described, nor does it help matters when this individual, still an alien enemy, is permitted to go where and when he pleases without being required to report to the police like other alien enemies. This is said to be a democratic country, involving administration of the law without fear or favor to bishop and layman, rich and poor, alike."

The annual auction sale of bulls to be held by the Alberta Cattle Breeders' Association at Lacombe, will occupy two days this year. On Tuesday, May 27th, the judging will commence, and the sale will start at 10 a.m. Wednesday, May 28th. It has been found necessary to extend the sale to a full day owing to the growth of this event. It is expected that there will be between 150 and 200 bulls offered at this sale this year, including Shorthorns, Herefords, Aberdeen Angus. Bulls purchased at the sale are loaded on the cars by the Association and shipped to the purchaser's nearest railway point at a nominal rate. The entries have already closed, and catalogues may be

WHY BUY ABROAD?

The balance of trade had now swung so that it is becoming adverse to Canada. Before the war it was against us by 300 million dollars annually. Owing to war orders, it became a favorable balance by nearly half a billion dollars.

Our war debt in the Dominion, however, has mounted up to nearly \$1,500,000,000. Henceforth, there must be a largely increased volume of trade to pay our interest charges. This is what exports will do.

But we must sell as much of the produce of Canadian fields in Canadian cities as we can. It means we must import less, especially in foodstuffs. If the Canadian city is to be the Canadian farmer's best market, then the farmer must loyally co-operate by buying those things which are lacking by Canadian industries.

The importance of woman as a purchasing agent in Canada is shown by the fact that 90 per cent. of the purchases for the home are made by her. In her hand lies the remedy for at least one important part of this adverse balance of trade.

The figures below are issued by the Canadian Trade Commission in an endeavor to encourage the use of Canadian products in Canada, to induce our people to make and to use at home those things which we need at home. The foodstuffs below were all imported from the United States in 1918. The application of the spirit of patriotism during the food campaign would solve one problem without further machinery. Canadian women could do it.

Foodstuffs imported which might be produced in Canada: Value

Green Apples	\$1,228,000
Blackberries, etc.	685,000
Cheese	114,000
Lard	288,000
Lard Compound, etc.	469,000
Meats (General)	728,000
Beef	1,738,000
Mutton and Lamb	355,000
Pork (Barrelled, etc.)	2,167,000
Tomatoes, canned and fresh	1,224,000
Canned Vegetables and	
Baked Beans	457,000
Beans	2,593,000
Peas	216,000
Peas (Shelled)	142,000
Breadstuffs	195,000

obtained by applying to E. L. Richardson, Secretary Alberta Cattle Breeders' Association, Calgary.

Y.M.C.A. GOOD WORK

One of the best reasons for supporting the Red Triangle Fund throughout the country is that the Y.M.C.A. is organizing an effort to extend its usefulness into the small towns and country districts. Every one knows how much good the Y.M.C.A. did at the front; how it spent hundreds of thousands of dollars on athletic equipment, chess, checkers, shows, concert parties, books and magazines, and many other comforts for the fighting soldiers. The campaign of the Y.M.C.A. was directed at exactly the same scale of prices to the soldiers as the army canteens, but in addition to that the Y.M.C.A. gave back to the fighting in the corps area in France 5 per cent. of the gross sales in their canteens to be used in providing special comforts for the men.

In addition to the chaplain service, the Canadian Y.M.C.A. was the mainstay of the morals of the Canadian soldier. It did work which no other organization could have accomplished, and scores of thousands of Canadian soldiers are today returning to their country better men because the Y.M.C.A. was with them at the front.

And now the Y.M.C.A. finds that its work is actually increased with the closing of the war. During demobilization, the Y.M.C.A. is even a more important factor than during the fighting. Every troopship coming back has its Y.M.C.A. representative with games, gramophone lantern, books and magazines and writing paper, and everything else that a soldier can need. Every troop train crossing the continent is similarly supplied. In fact, the military expenses of the Y.M.C.A. in 1919 throughout Canada and on the troopships will be \$1,000,000.

In addition to its military activities, the Y.M.C.A. is endeavoring to extend its system of entertainment and training throughout the country districts, particularly in connection with the work among the boys, and is undertaking a regular campaign with this end in view. Such an effort should have the generous support of the country.

The Red Triangle Campaign, which will open on May 1st, calls upon Albertans for \$105,500, but \$170,000 will be spent in Alberta during the present year on national Y.M.C.A. effort. It is hoped that throughout all districts of the province a generous response will be made.

OWES HER LIFE TO "FRUIT-A-LIVES"

The Wonderful Medicine, Made From Fruit Juices and Valuable Tonics.

MADAME ROSINA FOIZIZ

29 St. Rose St., Montreal.
"I am writing you to tell you that I owe my life to 'Fruit-a-lives'. This medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good."

I read about 'Fruit-a-lives'; and tried them. After taking a few boxes, I am now entirely well. You have my permission to publish this letter, as I hope it will persuade other sufferers from Dyspepsia to take 'Fruit-a-lives' and get well."

MADAME ROSINA FOIZIZ.
"Fruit-a-lives" is the only medicine in the world made from fruit.

50c. a box, 6 for \$2.50. Trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

HER MOTHER BLUSHED.

Little Dorothy's uncles are both in the war, and she has a great admiration for soldiers. The other day, in a crowded street car, she was sitting on her mother's lap, when a wounded soldier entered. Dorothy immediately slipped to the floor. "Here, soldier," she offered, "you can sit on mamma's lap."—Harper's Weekly.

UNIVERSITY NOTES

Lectures are ended in all Faculties of the University of Alberta and final examinations which have not been already held are now being written.

The Survey School finishes today for students in Applied Science, at the University and they are leaving for their homes.

The University of Alberta convocation for the conferring of degrees will be held on Thursday, May 15th.

Dr. Broadus of the University of Alberta is leaving today on his way to England, where he will deliver a course of four lectures at Oxford University on the subject "The Poet and the Laureate."

Mr. Gordon, of the English Department, University of Alberta, leaves shortly for Toronto where he is taking some examinations towards his Doctor's degree.

Dr. Collip, Department of Physiology at the University is leaving to spend the summer in England.

Dr. and Mrs. Lewis, both of whom have been ill with influenza, are gradually recovering.

The University Women's Basketball team have received a challenge from the Monarchs of Edmonton, a team organized for the special purpose of endeavoring to wrest the provincial shield from their possession. As they are in the midst of their examinations and have not been able to have any practice since they won the Shield two weeks ago, and as many of them have made arrangements to teach or take positions of various sorts immediately on the conclusion of examinations it is possible that they will be obliged to default the game and await the reassembling of the autumn to challenge for a game with the hope of re-acquiring the title.

W. A. Sutter and Roy Jackson, B.A., have just returned from overseas and have been welcomed among their friends at the University.

Arrangements are being made for examinations in Law and Accountancy to be held both in Edmonton and Calgary beginning May 19th. Examinations will also be held at the University of Alberta during the same week for the candidates for licenses to practice Medicine, Dentistry and Land Surveying.

Dr. Kerr, acting president of the University left on Wednesday night for Saskatoon to deliver the address at the convocation to be held at the University of Saskatchewan on Thursday, May 1st, and will return on Friday.

The Khaki University of Canada has established a Camp at Ripon, England. At this camp slight hundred men are undergoing full time training. The work covers Matriculation, 1st and 2nd year Arts, Applied Science, Agriculture, Law and 1st year Medicine with the exception of Anatomy. There is also a Theological department. The Staff includes upwards of sixty instructors, among them Professors Wrong of Toronto and Rose of McGill. Through the medium of the Khaki University there have also been placed three hundred men in the British Universities, the requirements being that these students should have completed two years in Canada. There are about ninety of them at Edinburgh and there is a flourishing Canadian Students' Society doing propaganda work for Canada. All the British Universities are represented in this Co-operative movement. In addition to that the right has been secured for all Canadians in the British forces to share in the very large gift of the British treasury for education.

It is expected that tenders will be called for in the immediate future for the erection of a new laboratory building at the north-west corner of the Arts Building at the University. This structure will be upwards of two hundred and fifty feet long and two stories in height.

SUMMER SCHOOL FOR RETURNED MEN.

Arrangements have been completed for the summer courses for returned soldiers. This summer session will open at the University of Alberta, Edmonton, on May 19th next, and will continue until September 12th. The purpose of this summer school is to furnish assistance to men whose studies have been interrupted by the war that too much time may not be lost in getting into regular classes again. In some cases men who had left school before enlistment are anxious to resume their studies. Provision will be made for these men also. Returned men everywhere are invited to take advantage of this school.

The school will be so organized to give as far as possible individual instruction. Thus a man may enter with almost any attainment and make as rapid progress as he is capable of. Any returned man who is interested in improving his education, with the idea of remaining in some institution in the fall should write the Department of Education, Edmonton, at once.

Returned men only will be admitted to these courses. The University Dormitories and boarding facilities will be available for men who may attend. A rate similar to that prevailing during the regular session will be allowed, namely thirty dollars per month for both room and board. The department of Education will furnish tuition in these courses free. The session will close in time for those qualified to enter the Normal School of Education with University work. All likely to attend should advise the Department at once that all courses required may be included in the plans.

A glance at a cake of Gold Soap will show you that it is unusually large. Actual comparisons will show that it is bigger than any other cake of laundry soap at the same price. This big cake of Gold Soap is heavy, solid,—it wears away slowly and evenly, lasting longer than ordinary soap. It is made only from the choicest materials suitable for laundry use,—it goes farther than ordinary soap. A single trial will convince you that Gold Soap is the best and most economical yellow laundry soap that you can use.

Gold Soap is made in the Procter & Gamble Factories at Hamilton, Canada

CHIROPRACTIC

What is Chiropractic?

IT IS NOT MEDICINE; NOT SURGERY; NOT OSTEOPATHY; NOT HOMEOPATHY; NOT MASSAGE.

THE CHIROPRACTOR DOES NOT TREAT, CURE NOR HEAL.

CHIROPRACTIC IS

THE SCIENTIFIC METHOD OF ADJUSTING THE CAUSE OF DISEASE, WITHOUT DRUGS OR INSTRUMENTS, AND IS BASED ON A CORRECT KNOWLEDGE OF ANATOMY.

THE CHIROPRACTOR

Adjusts the cause of disease, and nature cures and heals. To treat a disease you deal with the effect only. The Chiropractor adjusts the mal-positioned vertebra, which is out of alignment and causing pressure on the nerves leading from the spinal cord as they pass through the openings in this particular vertebra, and by so doing the pressure is relieved and the mental and vital forces are conveyed to the organs and tissues which they supply, and health is restored in a natural way.

If no one nerve in your body is disturbed in the performance of its normal function, you have perfect health; on the other hand, let one be disturbed, whether it leads to the ears, nose, throat, lungs, stomach, liver, kidneys, or any other part of the body, it will manifest itself in what is known as disease in the part it supplies.

Every part of the body and every organ depends upon nerve force and the flow of blood, and the flow of blood depends upon nerve force.

So Get at the Cause of Your Trouble.

For example: If your electric lights are not giving the amount of light they should, or

they will not work at all, you first send for the trouble-man. He does not go to work at the light itself: he looks for the cause, finds it, and adjusts it; the electric forces then reach the electric bulb and you have perfect light again.

The Chiropractor is your Health Troublemaker. If you are ailing, send for him, or call and see him. He, too, will locate the cause and adjust it, and your health will be restored in a natural way.

Now the question comes to your mind: Can Chiropractic help me? This is the pathetic and heart-rending question that fairly voices the despair and sorrow of ill and suffering ones everywhere, who have searched in vain for relief. To many the record of chiropractic presents a new hope. The results secured even in stubborn cases of long standing show that while

CHIROPRACTIC ADJUSTMENTS

will not do the impossible, they will benefit even after other methods have failed. It is sane, sensible and sufficient as a natural health method! It corrects the cause of disease and is in full accord with the law of man's being.

BRITISH POLITICS.

It is generally admitted, says the Manitoba Free Press, that the present British House of Commons was elected on issues almost entirely unconnected with home affairs and at a time when the electorate was far more interested in what could and would be done to secure the objects of the war and to remove the restrictions necessitated by its prosecution. The delicate and highly complex problems of industrial reorganization, resuscitation of trade and commerce, and the rehabilitation of the disappointed social strata, together with the realization of reforms long overdue and still further postponed by the war, figured hardly at all in the election campaign of last December. This condition constitutes one of the gravest dangers before the Coalition government. The "extinction" of the old Liberal party was largely due to the necessity of supporting the Coalition against external dangers in connection with the peace. The programmes of the Liberal and Labor parties hinged for the most part on internal questions. These were thrown into the background and the Coalition was given a mandate—or rather several distinct and variant mandates—to conclude a peace treaty which should secure reparation from Germany and provide guarantees against the repetition of the struggle to win which such huge sacrifices had been made. In the result a House of Commons was elected which was first of all "sound" in its peace programme, but which was also predominantly Unionist and, probably, reactionary, in regard to internal politics.

If there could be no great divergence between the Liberal Coalitionists and their Unionist colleagues on the peace issues the same cannot be said in regard to internal affairs. The differences between the two old parties about most of the latter are fundamental. Mr. Lloyd George still proclaims himself a Liberal. He has already broken with one of the most powerful supporters of the party whose use of a war-time authority to put through peace-time policies during the six years following the 1906 election he so bitterly denounced. It remains to be seen, therefore, whether the British Premier can carry his Unionist supporters with him on questions such as taxation, land reform, housing, Irish self-government and reform of the House of Lords; or whether he will be compelled to choose between abandoning the Liberal principles he professes and appealing to the electorate to support them.

Toronto Times.—Dr. Michael Clark is a radical. His views on this, therefore, are of particular interest, especially since he took a position in the House of Commons at variance with that of Mr. Nickle, of Kingston. His contribution to the debate was in part as follows: "I rise, Mr. Speaker, to indicate that I am not at one with what I understand to be the attitude of my democratic, radical, iconoclastic, and I might also say, Bohemian friends from Springfield and Kingston. At the close of the debate, Clark Nickle and Richardson voted against Nickle's motion.

Y.M.C.A. PLANS OVERSEAS

The Overseas section of the Canadian Y.M.C.A. has issued an official announcement of its plans. In laying out its military work for 1919, it was estimated that the Overseas section could be carried on without further appeal to Canada for funds, the necessary work remaining being made possible by utilizing canteen funds and balances of contributions, and by realizing on its assets in stocks and equipment.

The liquidation of these assets is now in progress, so far as the work permits, the decreasing numbers of Canadian troops in France opening the way to a reduction in equipment, in expenses of operation and in stocks. As the number of Canadians in England is maintained by new arrivals from France, the program there must be well continued.

It is right that every Canadian soldier should know that every dollar collected in Canada for overseas, as well as every cent of profits from overseas operations, such as the canteens, and the entire realization of assets overseas will be spent in his service on this side of the Atlantic.

The Overseas Executive of the "Y" figure that the funds obtained from these sources will permit the continuation of the "Y" program until demobilization in France is complete, and in England until August 31st. Since by that date it seems certain that every Canadian will be on his way to Canada, there is no prospect of even the last soldier from overseas suffering from any serious curtailment of the Y.M.C.A. program.

PROVINCIAL MARKETS

Examiner's Review, May 2nd.

CATTLE

Several loads of good cattle were again on the Calgary market this week, and the prices on the steers were practically as high as they were in the week, quite a considerable number of the best steers will bring from \$15.50 to \$15.75. Cows were selling better, and while last week those which were not top quality were somewhat neglected, this week there is a stronger tone for the females and the best cows bring up to \$14. There have been more of a better class of feeders taken out this week at prices up to \$11.50. Not many bulls offered. Veal still scarce. Most of the receipts which are coming on the market now are fine and cattle, and the stuff which has not been put in shape for killing is not getting anything like the top prices.

Better finished cattle are being marketed in Edmonton this week, and the prices are correspondingly advanced, with the best sales at \$14.00 for steers and cows bring \$12. Stockers and feeders continue to be in strong demand, and for the short-term feeders, the price has been advanced until they are now selling at \$12.50, and up to \$13. Springers cows are brisk, and bring from \$12 to \$14. High prices are being paid for some of the choice veal calves.

HOGS

Still higher prices are realized on hogs, with the sales on Wednesday at Calgary touching \$22.50, and one load a dime higher. Thursday they were practically all at \$22.50. Receipts were light, and this morning's arrivals were sold promptly at \$23.00.

Like other western hog markets, Edmonton has been getting top figures also, but the receipts are light.

HORSES

Markets are still dragging, and the only buyers who are showing any activity are those in the northern part of the province. Prices are still easy.

SHEEP

No butcher sheep are being received on the provincial markets.

GRAIN

Prices during the week have been hopping around, and there were big breaks in values, but for the past day or two the tone has been better. In the United States the seedling conditions are not just as good as they might be, but in the Canadian West satisfactory progress is being made, and with the limited amount of grain that has to be marketed there is not much interest in prices. Calgary exchanges are quiet quoting on oats, and trading is done on Winnipeg basis.

PRODUCE

Eggs continue to show a steady tone, and this is not in keeping with the season of the year. Next week's prices will probably open around \$13. Dairy butter is showing some little increase in volume, and prices are still high, but there is more discrimination, and the fancy table butter will bring up to 45c. Country creameries are pushing their stock, and there is an increase in production. Butterfat prices at country buying stations have been advanced by the Calgary creameries, now on a basis of 54c for extra cream. Cheese factories are not making as much as usual, with nothing likely to be offered for a couple of months yet. Hay is still unsettled, and the prices are quoted from \$15 to \$25, according to location and to movement in potatoes; other vegetables steady.

FURS

No change in quotations from last week. St. Louis sale is on this week and it may result in some alterations next week.

HIDES

Better tone is being shown in the market for the light hides of good quality—heavy, springy hides not wanted.

MERCANTILE FLEET IS ORGANIZED BY DOMINION

Montreal, May 1.—Canada will open a new chapter in her maritime history one day next week when the first ton of freight in the great trade service which the Dominion government has inaugurated by the organization of the Canadian government mercantile marine will be carried in a Canadian government vessel.

Today the government took over one of the large sheds on the harbor front here, and H. Milbourne, marine superintendent of the government marine service, opened up his office. Canadian-built boats will be used in the service. The Canadian Ranger and Canadian Pioneer, both built at the Canada Vickers Yard in Montreal, will inaugurate the new service, and as they are ships of 8,100 tons burden they will be able to carry a large cargo on each voyage.

"TWENTY VESSELS EXPECTED" It is confidently predicted that before the middle of the coming season there will be at least twenty vessels in the new government service. A start will be made in carrying Canadian products to West Indian and South American ports. The vessels will carry raw materials for the most part on the outward voyage, but with the development of Canadian industry there is every likelihood of a large trade being done soon in the manufactured products of the Dominion. From the West Indies their boats will return with tropical and semi-tropical fruits, coffee and ginger. The first vessel will return to Canada with a cargo of sugar from Havana.

The government has plans for pushing further afield and will establish a regular service with Great Britain during the course of the next few months.

NOT "HOW CHEAP" BUT "HOW GOOD."

The bicycle business is one of the sturdiest, staidest industries in the country. Five or six years ago it was a boom, and in conditions like those brought about by the sudden armistice would have almost completely disorganized the whole bicycle industry. In the past few years, however, the bicycle business has been put upon a much more stable basis than before.

"The conditions, as pointed out by a writer in 'Motor-cycling and bicycling' is now recognized as a useful machine for transportation purposes and that when a man buys a bicycle he is entitled to a good one.

A few years ago the question was: "How cheap can I get a bicycle?" Today the question is: "How good is the bicycle, how good are the tires, how good are the other parts?"

Both the manufacturer and the dealer seem to realize that they have never done before that an article sold at a price too low to permit of good quality and satisfaction to the user is an article it does not pay to sell.

The volume of business, therefore, has shifted from the cheap bicycle and tire to the better grade.

The bicycle is today in the public eye as it had not been for twenty years. And now that high grade machines are demanded, the bicycle business has no reason to fear the scrutiny to which it is being subjected, but is in a position to get the best results from the publicity it is receiving.

The bicycle has not come for a day. So long as men and women want to get from one place to another quickly and cheaply, so long as "ride" like fun and exercise combined, the bicycle industry will live and flourish.

RED TRIANGLE FUND

Receipts From Red Deer District

According to a statement prepared and issued by the National Council of the Y.M.C.A. regarding the receipts of the 1918 Red Triangle Fund, the following amounts have been received from the different communities of this district up to March 31, 1919:

Arley	17.00
Bentley	244.55
Howe	58.63
Cadogan	5.25
Carleton	1068.00
Crowfoot	256.58

An audited statement of all the money received from the campaign and of its expenditures will be published during the present month.

WAR SAVINGS STAMPS.

When the Canadian Government adopted the Thrift and War-Savings Stamp scheme, it took a forward step.

In no better way could it put at the disposal of every parent and every teacher the means of teaching practical patriotism and thrift to the youth of the land.

It should be part of every parent's duty to give each child a Thrift Card with one stamp on it, and to encourage the child to earn and save to fill up the card and exchange it for a "baby bond."

Each child who owns one twenty-five cent Thrift stamp has a financial interest in Canada. He owns part of the land of his birth. He is lending his country money to recoup her war losses. The little stamps have put practical patriotism within the reach of the smallest child.

Not only is it a lesson in patriotism, it is just as valuable a lesson in thrift and the principle of investment. The gradual growth of interest on his bond will be watched with increasing fascination and delight by the youthful bond owner.

And the stamp scheme is by no means one limited in value or importance to the youth of the land. It is an excellent way for anyone, no matter what his financial position, to "save just a little bit more." It is surprising how quickly one saves a considerable sum, a quarter here, a quarter there, each one a scarcely noticed expenditure.

Small savings now share in the high interest on Government Securities.

War-Savings Stamps

Redeemed in 1924 for \$5.00. Sold at Money Order Post Offices, Banks, and wherever the Triangle and Beaver sign is displayed.

THE DIRGE OF THE BRIGHT BRIGADE

Or the (ever) present pitiable political plight of the Alberta Government; with eulogies to the poet and apologies to the government.

Half a step, half a step, half a step backward.
Went the Alberta Government.
Telephone troubles to the right of them;
Railroad mix-ups to the left of them;
Political scandals all around 'em;
Volleyed and thundered.
Where will Alberta stand?
Bomb holes on every hand,
Edmonton "no man's land."
Government blundered.
One whole step, two whole steps, three whole steps downward,
Plunged the Alberta Government.
Went further in the hole,
Burrowed down like a mole,
So deep, 'twas black as coal:
Then round it wandered.
Alberta! "down and out."
"God's country," put to rout.
Too totally up the spout:
Finances squandered.

RED DEER SCHOOL BOARD

Discuss Manual Training and Domestic Science

A special meeting of the Red Deer Public School Board was held on Friday afternoon to hear High School Inspector Smith and Mr. L. E. Pearson, supervisor of manual training at Calgary, discuss the new government proposals for manual training and domestic science in the government schools. Present were Mr. Gault, chairman, Mr. Payne, Mr. Welton, Principal Locke, Mr. Fowler and Mr. Inspector Smith. The chairman spoke of the sympathy of the school board with these new and very practical studies which they had been debarred from introducing because of the difficulties in municipal financing and because of the want of qualified teachers.

Inspector Smith pointed out the absence of boys from the High Schools in grades 9, 10 and 11, had eight boys out of a total of 45; Wetaskiwin out of 73; and Leduc out of 100. Red Deer were not much better off in attendance of boys. The schools were not apparently offering the boys what they wanted, and hence he believed the introduction of manual training and domestic science was a step in the right direction. They did not need no more additions to their school studies, as a more fertile program will be selective studies, giving opportunity to pupils of different capacities and with different interests. The Department of Education was endeavoring to promote the new system, and in order that the smaller communities might have these advantages, the Department was willing to work out a group system whereby two or more contiguous centers could employ one teacher, and manual training and one in domestic science, giving part time at each place. Although the thought of Leduc and Red Deer would form an ideal group—Lacombe two days and Red Deer three days. Lacombe has no necessary accommodation, but the rooms would require fitting up. The Department would pay 50 per cent of the teachers' salaries and travelling expenses, up to \$2,000, and 50 per cent of the initial equipment, up to \$1,000.

Mr. Pearson presented figures of methods of arrangements for teaching, and cost of equipment. Grades 6 to 12 could be provided for—from 14 hours per week in grade 6 to 24 hours or more per week for the higher grades. An average of twenty pupils could be taken in each class. The cost of establishing the program, including equipment, work tools with some metal work, would run \$32 to \$425, according to the ground covered, and the completeness of the equipment; for domestic science, twenty-four pupils could be taken, and for manual training, \$113.43. Red Deer's share of the teaching cost, Mr. Smith thought, would run about \$150; of the equipment, half the cost.

What kind of accommodation could be provided? What new building would be necessary? A two-story building at \$1500 was suggested—what physical training could be added? What extra building and equipment would be necessary for running track, swimming pool, etc.; whether Red Deer would work out the new subjects by itself, and use the manual training and domestic science teachers for other subjects, as the Inspector was reporting again the High School at Red Deer, some of the phases of the discussion.

The Board will follow up the matter by getting plans and estimates of buildings and equipment, and will ascertain the views of the Lacombe School Board towards the scheme.

C.P.R. TO START NEW SERVICE OVER CANADA.

Winnipeg, May 1.—An announcement is made today by the Canadian Pacific Railway officials of the inauguration of a fast all sleeping car train across the continent, starting Saturday June 1. It will be an entirely new train and additional to the usually augmented summer train schedule. This additional train means that passengers will be delivered in Vancouver from Montreal in ninety-three hours, from Winnipeg to Vancouver in forty-eight hours, and between Winnipeg and Calgary and Vancouver and Calgary in approximately twenty-four hours, thus making the fastest trans-continental run of any railway.

The train will have a limit of nine cars, consisting of compartment observation cars, standard sleeping cars, dining cars, No coaches or tourist cars will be carried, and passengers will be required to have sleeping car berth tickets secured in advance and no space reduced fare passage will be honored on these limited trains. The new trains will be known as numbers seven and eight and will be the only limited trains on the continent actually operated from coast to coast.

Westbound No. 7 will leave Montreal at 4 p.m., with connecting train leaving Toronto at 7:30 p.m., arriving in Port William at 9:30 p.m. the next night. Winnipeg 9:45 a.m. the second morning. Departure from Winnipeg will be at 10:00 a.m., reaching Regina at 7:25 the same evening, Moose Jaw 8:40, Calgary 9:15 next morning, and Vancouver 10 a.m. second morning from Winnipeg.

The eastbound train will leave Vancouver at 7:30 p.m., arriving at Calgary following evening. Moose Jaw second morning at 10:05, Regina at 11:15, Winnipeg second day at 10:45 p.m., the second evening in time to make connections for New York, Boston and the maritime provinces.

SEED GRAIN LEND AN ARRANGEMENT.
In the Dominion house of commons on April 1st, the Hon. Mr. Bennett reached through the Dominion government and the Canadian banks for the financing of seed grain purchases was discussed.

The bank is to loan at a rate not exceeding 7 per cent, and the loans are guaranteed by the Dominion government. If any loan proves unacceptable a bank will receive the principal with 5 per cent. interest from the government. The government also pays 1 per cent. to the banks for collection so that they will in reality receive 8 per cent. for the money they loan and collect, and 5 per cent. for

MEETING OF ALLIES AND HUNS IS TENSE

GERMAN DELEGATE COULD HARDLY SUSTAIN HIMSELF THROUGH BITTERNESS OF HIS LIFE.

Vernon, May 1.—The German and allied delegates met today for the first time, when credentials were exchanged. The moment of meeting was a tense one. Pale, and almost fainting from emotion, Count von Brockdorff-Rantzau, the German foreign secretary and head of the peace delegation, sat through what evidently was one of the bitterest moments of his life. He was barely able to sustain himself on his feet through the brief ceremony, and to reach the waiting automobile which had brought him to the gathering.

THE MEETING.

The meeting took place in the room of the "Prisoners of War" used for the sessions of the supreme military council. Count von Brockdorff-Rantzau, on entering, was accompanied by Count von Helldorf, his secretary, and two secretaries, and waiting for him the allied representatives were grouped around Jules Cambon, former French Ambassador at Berlin, and a chairman of the commission. Other members of the allied party included Lord Harding, Great Britain; Ambassador Matsuda, Japan; and Henry White of the United States. M. Cambon immediately addressed Count von Brockdorff-Rantzau, stating that he was chairman of the commission entrusted by the allied powers to receive and examine the credentials of the German delegates as the first step in a conference, which it was expected would lead to peace. "Here are," continued M. Cambon, extending as he spoke, "the formal credentials of the allied commission as plenipotentiaries at the meeting." Count von Brockdorff-Rantzau, surrounded the German credentials with even less of a formal address, his "welcome" being great to one he had to deliver an extended discourse.

WAS SOON OVER.

After these brief ceremonies, the German delegate left, and the allied delegates walking a few steps to the cars in waiting. They were followed immediately by the allied representatives. The whole ceremony was over in about fifteen minutes. The allied delegates then rode to the chateau to inspect the hall of mirrors, where the treaty will be signed, and eventually returned to the hotel for tea.

IMMIGRATION BILL PASSES IN OTTAWA HOUSE.

Amendment to Prohibit Entry from Southeastern Europe Stands Over. Ottawa, May 1.—With the exception of an amendment by Hume Cronyn, London, the immigration bill passed the committee in the house today. Mr. Cronyn's amendment was in relation to the term of five years, the entry into Canada of people from southeastern Europe. He specified a geographical line of demarcation.

"It is a novel proposition," the minister of immigration said, and Mr. Calder could not see clearly how the system could be worked. Eventually after some discussion, the amendment was allowed to stand. It now remains the only topic for discussion in committee on the bill. For the greater part of the day's sitting, the bill was under discussion. In the afternoon, S. W. Jacobs, Montreal, moved that the clause establishing a literary test for immigrants should be struck out. But his amendment was defeated by 75 to 37 on a straight party vote.

Subsequently in the evening, the house, in committee of the whole, took up the bankruptcy bill represented by the solicitor-general. It was in committee when the house adjourned.

WANTS ELECTROCUTION.

H. M. Mowat introduced his bill to amend the criminal code. The amendment provides for the substitution of the electrocution instead of hanging for the death penalty. Hanging was not always popular with the public, and the criminal suffered unnecessarily as a result of this. The bill also provided, he said, that executions should not take place at a local jail, but in the nearest provincial penitentiary, where the criminal would be properly guarded.

URGES RETURN FARMERS' SONS

Mr. Robb asked the minister of militia if arrangements could not be made for the discharge from military service of farm sons, in the view of the scarcity of farm labor.

Mr. G. Mowbray replied that the scheme was found to be impossible and impracticable, and that priority return to any individual or classes created an embarrassing situation.

the money that they loan and have to collect from the Dominion government.

The decision as to whether a loan is to be granted rests with the agent of the government. If his permission is secured then the farmer is entitled to receive the loan from the bank. Members of the commons criticized this provision as giving too much responsibility to the agent. The minister pointed out that equal responsibility was given the agents in the commons.

"Furthermore," he said, "there is this restraint: The bank is not going to be over-anxious to lend money unless the loan proves unacceptable a bank will receive the principal with 5 per cent. interest from the government. The government also pays 1 per cent. to the banks for collection so that they will in reality receive 8 per cent. for the money they loan and collect, and 5 per cent. for

THE FARMER'S CLOCK.

You can't fool a chicken with a wrist watch. You can't dictate to the Great Force that controls the falling of the dew. Nor can you put ginger in a sleepy-eyed mule one hour before time to go to work. And only an idiot would put up steam hay. You may push the hands of the clock back till the cows come home, but you can't regulate their coming by your pushing. Nothing time is milking time, whether there is a chronometer on the place or not.

In other words, the routine of a farm in the house and in the field, and in the yard, starts at daylight and runs just so far into the evening, by sun-reckoning.

That is the farmer's case against the daylight saving law. Hundreds of letters to the Herald and Examiner from all over the middle west indicate that the farmer is unanimous on the subject.

Now when a class of people so important and conservative as the farmers is unanimous on any subject it would seem time to examine the cause. If we of the cities, which after all would not exist but for the farmers, are doing this, what right have we, ought we to know it.

We have been thoughtful, it seems, in our glib disposal of the argument with the remark:

"Let the farmer go ahead and work by sun time, if he wants to. What to prevent him?"

Quite shabby. Clever stuff, as we city slickers sometimes say. But it appears we were not so smart as we thought we were. We quite overlooked the small circumstance that the farmer is not a cloistered monk; that he has more or less frequent dealing with the outside world of more or less important business in the city.

There are trains to catch, including milk trains. Occasionally the farmer has business at the bank, the post office, the doctor's office, or his wife has shopping to do in town. The picture show and the Chautauque lecture are essentials in modern country life.

Yes, let the farmer work by the sun—as the very nature of his business, so important to us all, compels him to do.

And then let him be one hour late every time he tries to connect with one of civilization's activities beyond his own range.

Is it fair to him? Perhaps we of the cities, who so delight in the "extra hour of daylight," might ponder the question before venturing sweeping decisions on the farmer's complaint.—Chicago Herald and Examiner.

RURAL SECRETARY-TREASURERS MEET

Mr. A. D. Fielder, of the Department of Municipal Affairs, Edmonton, met the following secretary-treasurers of rural municipalities at the Arlington hotel, Red Deer, on Thursday afternoon: D. D. 338 of Hays—T. Q. Moore, Delburne. M. D. 339 of Pine Lake—J. W. Henson, Delburne. M. D. 340 of Arthur—James Jones, Innisfail. M. D. 341 of Poplar Grove—James Alex Laird, Innisfail. M. D. 342 of Itawen—J. R. H. McClelland, Innisfail. M. D. 343 of Prairie Creek—E. A. Gledhill, Innisfail. M. D. 344 of Golden West—A. McCaskill, Sylvan Lake. M. D. 345 of Lacombe—R. Russell, Red Deer. M. D. 346 of Cromer—E. Walter Simpson, Lacombe. M. D. 347 of Lorne—J. G. Overenden, Bentley.

Mr. Fielder reviewed the new legislation passed this session affecting rural municipalities. The secretary-treasurers will collect the municipal taxes, and in some cases school taxes, as in 1918, but are now also charged with the duty of collecting the Wild Lands tax which must be done on a valuation basis, the secretary-treasurer to make the assessment, and the land values are to be assessed on a valuation basis for all purposes.

Matters of tax arrears procedure and other details were explained and discussed.

SAYS REVOLT IS BREWING IN MANITOBA.

Winnipeg, May 1.—That Ukrainian settlers in Springfield and adjacent districts of Manitoba are openly holding revolutionary meetings and planning an uprising this spring, was the intent to establish a Bohemian, and that the priests of foreign churches are deliberately preaching sedition from their pulpits with the intent to inflame the foreign population against established government, was asserted today by D. A. Ross, M.P., for St. Clements. He reiterated statements contained in a letter which he wrote to R. L. Richardson, M.P., on March 24, which formed the basis of Mr. Richardson's address in the house of Commons on Wednesday night. Mr. Ross believed that Mr. Richardson had been misquoted in some respects, but he emphatically reaffirmed the sentiment that revolution was brewing in Manitoba and authorities are taking no precautionary measures.

HOTEL WILL BE CONVERTED INTO LADIES' COLLEGE

STRATHCONA IN EDMONTON HAS BEEN LEASED BY MANAGEMENT AT RED DEER.

Edmonton, May 1.—What used to be one of the best known hostesseries in this city is now to be converted into a ladies' college. The old Strathcona hotel has been leased by the management of the Alberta Ladies' College of Red Deer, and alterations are being commenced to make it ready for occupation next fall as temporary premises for the institution.

A five year lease has been signed and the building will be used both for class room and dormitory purposes.

Rev. N. D. Keith, principal of the college, made this announcement at the morning session of the Presbyterians synod, when he gave a report on the year's school work. The reason for the move, he explained, was the fact that Assiniboia hall, where the college has been temporarily located for the past three years, will be required by the university authorities at the opening of the fall term.

A site for a permanent building for the college has been secured, Prince Keith also announced. The block of land, comprising about four acres, originally bought by the city for a hospital site near the corner of Whyte avenue and 16th street, is to be taken over by the college board at a price of \$5,000.

PLANS ARE SECURED.

A permanent building will be erected, for which plans have already been secured. Mr. Keith stated, however, that actual building operations would not be commenced until the necessary funds were in the bank, as the institution was determined not to go into debt.

The reason why it was proposed to change the name of the institution this year, and the offer of a prize for the best suggestion of a suitable name would remain open till July.

The college with Red Deer, where the school was first located, will be dropped. The attitude of the synod toward a readjustment of the theological college situation throughout the Presbyterian church in Canada was tested out on a motion to ask the general assembly to consider possible relocation and greater cooperation. There was a feeling on the part of some of the delegates that for the present the ministerial training work of the denomination could be done by three or four colleges instead of the eight now being maintained and that better work also could be thus done by consolidating.

By a close vote, however, the synod decided not to make such a request of the assembly, the fact that the college has already adopted a policy being considered good reason for not reopening the question. A theological college at every university town in the country, which the Dominion-wide church was working.

WARSHIPS GOING CHEAP.

The millionaire who seeks a new outlet for his gold will soon have an opportunity without precedent, when a large number of ships which have done useful work in the war come under the auctioneer's hammer.

At one of the last Admiralty sales before the war, no fewer than fifteen ships were sold, and for \$250,000 it was possible to become the owner of a navy's South American State might have envied.

Among them was the Belleisle, a battleship of 4,175 tons, with armament ranging from four to twelve inches, and equipped with engines, boilers, condensers, etc. Originally built for the British navy, she has seen thirty years of service before she was made an experimental target for the Majesty's guns. But she was still a stout vessel, able to give a good account of herself in battle, and dirt cheap at the \$43,000 she fetched in the Chatham Dockyard sale.

Another doughty ship of war was the Duke of Wellington, which, in the days of her pride, had carried 131 guns, and headed the line at a great battle review held by Queen Victoria. For this magnificent ship the paltry sum of \$42,750 was paid.

The Algiers, over which the admiralty's flag had floated at Chatham for some years, was knocked down for \$46,750. The Edgar, a battleship of 915 tons fetched \$25,500; and the Hambleton changed hands for \$25,000. The greatest sum of \$175,000 thus securing five battleships which must have cost at least a million pounds sterling.

Another Admiralty sale of the year included that fine first-class battleship, Collingwood, a vessel of 9,500 tons, armed with four twelve-inch guns, and built at a cost of \$1,200,000, the cruiser Plague, of 3,200 tons, built at Jarrow in 1890 for \$720,000.

But these are mere crumbs compared with the feast that will soon be spread for the buyers of warships that have served their day in the world's greatest war.

VON HINDENBURG WILL RETIRE TO PRIVATE LIFE.

Berlin, May 2.—Field Marshal von Hindenburg has written President Ebert announcing his intention to retire to private life.

"During the transitional periods," says von Hindenburg, "I consider it my duty to serve the Fatherland, but with the conclusion of a preliminary peace, my task will be fulfilled, and my desire to retire, in view of my advanced age, will be universally understood, the more so because it is known how hard it has become for me, in view of my opinions and my entire personality and the past, to continue to exercise my office."

Remember the G.W.V.A. dance in the Armouries tonight.

Mrs. W. Pierce is visiting her daughter, Mrs. Frost Swanson.
Postponed sale of furniture by H. White on Saturday at Mrs. R. Davidson's, Fourth Street S.E.

Rev. Arthur Barner was in the city, the guest of his sister, Mrs. McDowell, last week.

Clean-up day was a dismal failure as everything was buried under about five feet of snow. We will have to try again in the near future.

Doors open 7.30 for Ford's big lecture entertainment. Lecture begins at 8.30 sharp. Come early and get a seat. Adults \$1.00, children, 50c.

Mrs. J. Dent, who has been spending the winter at Vernon, B.C., is visiting her daughter, Mrs. W. K. Wickens.

Rev. G. D. Armstrong returned from Ottawa last Thursday, where he had gone owing to the illness of his father, who is now on the mend.

Powell and Morris, of Carstairs, have rented rooms near the Windsor hotel, and will open up a vacationing business in a few days.

Al. F. W. Galtbraith was in the Memorial Hospital for a minor operation last Friday. He is able to be out again.

The sale by N. White of Mrs. Robert Davidson's furniture was postponed last Saturday on account of the storm and will be held on Saturday first, May 10th.

The Great War Veterans wish it to be made known that children under 16 years of age are not permitted to attend the weekly dances unless accompanied by parent, or other responsible parties, with the approval of the parent or guardian.

Don't forget the Tag Day, 10th May. Buy as many tags as possible, so that we can procure instruments to help the budding musicians of Red Deer to become efficient bandmen and have a jangle band. Be generous and help the youngsters all you can.

Mrs. Hope, Parkville, Red Deer, will have the sympathy of neighbors and friends in the loss of her daughter, Miss Ethel V. Hope, of pneumonia, at Acme, where she had come to visit her sister, Miss Hope's death is the first break in the High School pupils. She had been in attendance since January.

Why not have a league of football clubs in this city this year? If the C.P.R., the Schools, the Veterans, the Fire Brigade, and the City each get a team together there would be more interest in the games and provide sport for a greater number of enthusiasts. Get together boys, and let's have a league.

NOTICE.
Notice is hereby given that all owners, possessors or harbourers of dogs inside the limits of the village of North Red Deer must produce to the Secretary Treasurer, or from Wm. Rich, Dog Tax Collector, a 1919 Tag license for such dogs on or before the first day of June, 1919. All persons failing to comply with this notice will be violating By-law No. 2 of the Village of North Red Deer, and all such persons will be summoned before a Justice of the Peace for the violation of said By-law.
A. DURAND, Reeve.

J. E. WELTON, Sec. Treas.
